PROFESSIONAL SUMMARY

Fourth-year Computer Science (AIML) engineering student with hands-on experience in full-stack development, Retrieval-Augmented Generation (RAG), AI-enabled applications, and 3D visualization. Built individual and team prototypes, including a document-question-answering RAG system and a software supply-chain vulnerability scanner. Certified in AI Agents and Agentic AI fundamentals.

TECHNICAL SKILLS

Programming: Python, JavaScript
Frontend: HTML, CSS, React
Backend: Node.js, Express.js, REST APIs
Databases & Retrieval: MongoDB, MySQL, ChromaDB, vector search
AI / GenAI: RAG pipelines, LLM API integration (Gemini), embeddings, AI agents (fundamentals)
Tools: Blender, Unity, Gaussian Splatting, Git, GitHub, Postman

PROJECTS

ResearchMate — Retrieval-Augmented Generation (RAG) Model

Personal project | Python, PyMuPDF, ChromaDB, Gemini API

- Built a RAG pipeline that ingests research-paper PDFs, extracts and chunks text, creates embeddings, and retrieves relevant passages for user questions.
- Connected retrieved context to a Gemini language model to generate grounded answers based on the uploaded research paper.
- Implemented PDF loading, chunking, vector storage, semantic search, and answer generation as separate backend modules.

Lakshya — AI-Powered Self-Study Platform (Completed)

Academic planning and student productivity

- Developed an academic support platform focused on study planning, task management, exam preparation, and progress tracking.
- Designed features including a personalized study planner, AI proctoring concept, and real-time study chat for collaborative learning.

Digital Twin — Basic Prototype (Prototype Ready)

3D visualization | Blender, Unity, Gaussian Splatting

- Created a basic prototype exploring digital-twin experiences for real-world environments using 3D assets and rendering workflows.
- Worked on integrating 3D models and spatial scenes into Unity to support interactive exploration.

Manzil.com — Academic and Career Resource Hub

Web development | HTML, CSS, JavaScript

- Built a centralized resource hub for technical students, with a grid-based dashboard, sticky navigation, and quick-reference cheat sheets.

EXPERIENCE

International Summer Internship Program (ISIP)

Technical University of Sofia, Bulgaria | 3D Object Rendering & Gaussian Splatting

- Explored Gaussian Splatting and 3D object-rendering workflows using Blender and Unity.
- Developed 3D assets and environments and investigated multi-view rendering and point-cloud workflows in an international research setting.

Independent & Team-Based Project Development

Academic, personal, and hackathon projects

- Contributed to project planning, interface development, backend integration, and prototype building under time constraints.

HACKATHON EXPERIENCE

Hyron AI — Software Supply-Chain Vulnerability Scanner

Hackathon team project | OSV.dev, dependency manifests, risk scoring

- Collaborated on a prototype that checks software manifests such as package.json, requirements.txt, and pom.xml against vulnerability information from OSV.dev.
- Highlights potentially affected dependencies, applies risk scoring, and suggests a prioritized patch order to help teams triage issues.
- Contributed to planning, interface development, and backend integration; created the presentation deck for the final pitch.

CERTIFICATIONS

- **AI Agents and Agentic AI for All** — Infosys Springboard (October 2026)

ACHIEVEMENTS & LEADERSHIP

- **Social Media Co-Head, E-Cell:** Managed the E-Cell's Instagram and LinkedIn pages and helped plan and promote committee activities.
- **National Entrepreneurship Challenge (NEC), IIT Bombay:** Team achieved National Rank 8.
- **Balnatya State-Level Drama Competition:** Secured Second Position with the team.
- **Athletics:** Participated in athletics competitions on multiple occasions and represented at Zonal level once.

EDUCATION

Bachelor of Engineering — Computer Science (Artificial Intelligence & Machine Learning)

Vishwaniketan's Institute of Management Entrepreneurship and Engineering Technology (ViMEET) | 2023–2027 | CGPA: 6.54 / 10
